Subject: Invitation: Register to become a supplier with Axpo Group

#### Dear Supplier

Axpo Group is digitizing its purchasing processes. We use the SAP Ariba application to handle them. The master data of all providers and suppliers is maintained and updated electronically there. You can use SAP Ariba to communicate your changes to us. Every time you participate in a tender, the saved data is retrieved to reduce your effort, and we can conduct evaluations more quickly.

For the efficient implementation of this digitalization, Axpo is constantly prioritizing different groups of suppliers and migrating them to the processes in SAP Ariba. As an existing supplier, you are included in the current wave of migrations. Accordingly, we ask you to register your company with SAP Ariba.

<u>Click Here</u> to log in and link to your existing Ariba account or create a new one. A questionnaire will then appear, on which you can confirm or/and complete your master data.

FAQ:

Where can I find more information? In the <u>Supplier Portal</u> you will find all the necessary information on integrating with our system, including training videos.

Cost of Ariba? A free Ariba Network "Standard Account" is all you need to work with Axpo. If you want to use more advanced features of SAP Business Network, you can upgrade to an Enterprise Account anytime.

## **E-mail notification**

Now you are redirected to SAP Ariba Business Network.

- If you have already the SAP Ariba account, please select Log in (see page 5)
- If you **do not have** any SAP Ariba account, please select **Sign up** (see page 6)
